

HOW THE PROGRAM WORKS

A SIMPLE PROCESS

- Nothing to sell, nothing to buy, just collect and recycle empty ink/toner cartridges that most home and business printers use.
- All your school/club/organization needs to do is spread the word through letters, flyers and word of mouth to increase successful donations.
- Earn cash for your recycling efforts year round.
- Payment will be distributed within 4-6 weeks of receipt of cartridges.
- We are currently accepting all inkjet (small personal/business printers) cartridges.
- Only accepting select laser cartridges on our current pricelist.

PACKAGING/SHIPPING YOUR CARTRIDGES

- All inkjet cartridges are being accepted.
- Check to make sure your laser cartridges are on the list of accepted cartridges.
- Make sure the cartridges seem to be in good working order.
- When packaging make sure to securely package and handle carefully to prevent damage during shipment.
- Prepaid FedEx labels are provided for shipping. Make sure your box is clearly marked with your account number. If the box is used make sure to black out any previous shipping information or barcodes with a permanent marker.
